**Durapipe UK**  
innovators in plastic pipework

Tel: 01626 201092

**Durapipe UK  
is a leading  
manufacturer  
of high  
performance,  
thermoplastic  
pipework  
systems.**

With 60 years of experience, our portfolio of products is widely used around the World for many different applications.

Whether it be pressure pipework for the conveyance of different media such as water, fuel or more aggressive fluids or specialist drainage pipework, the solution will be found within the Durapipe range.

## Key Contacts

### Customer Services

0844 800 5509  
[enquiries@durapipe.co.uk](mailto:enquiries@durapipe.co.uk)

### Technical Support

01543 471681  
[technical@durapipe.co.uk](mailto:technical@durapipe.co.uk)

Pages 11 - 33

For chilled and cold water applications.

Pages 35 - 42

C-PVC pipework for hot & cold water.

Pages 43 - 55

Laboratory chemical drainage system.

Pages 57 - 61

Sound reducing drainage system.

Pages 63 - 97

For process chemicals & industrial fluid handling.

Pages 99 - 101

Specialist dual contained PVC-U pipework.

Pages 103 - 115

For industrial processing.

Pages 117 - 123

C-PVC pipework for hot corrosive chemicals.

Pages 125 - 130

For compressed air distribution.

Pages 131 - 146

For safe fuel transfer.

Pages 147 - 198

Complete range of manual and actuated valves.

Tel: 01626 201092

## CHILLED AND BOOSTED COLD WATER

**Durapipe SuperFLO ABS for low temperature fluid transportation.**

**Durapipe SuperFLO ABS combines corrosion resistance, toughness and economic benefits to provide tremendous advantages for low temperature fluid transportation.**

SuperFLO ABS is a solvent welded, fully matched pipework system incorporating pipe, fittings and valves that is available in both imperial and metric sizes.

SuperFLO ABS provides a wide temperature range and the system remains extremely ductile even at temperatures as low as -40°C.

Furthermore, SuperFLO ABS is extremely lightweight and is much easier to handle on-site than traditional materials especially during installation which can significantly reduce both time and cost, as well as being fully WRAS approved.

### Key Product Information

- Size Range: 3/8" to 8" (Imperial), 16mm to 315mm (Metric)
- Pressure Rating: (Imperial) Up to 4" Class E, Up to 6" Class D, Up to 8" Class C
- Pressure Rating: (Metric) PN10 - 16 to 250mm, PN8 - 315mm
- Temperature Rating: -40°C to +60°C

### Key Product Features

- Lightweight
- Easy to install
- Wide temperature range
- Tough and durable
- Corrosion resistant

### Typical Applications

- Chilled water
- Boosted cold water
- Potable water
- Low temperature cooling
- Demineralised water
- Vacuum systems
- Waste water
- Secondary Refrigeration

# ABS

## Metric system

## HOT AND COLD WATER

**Durapipe HTA<sup>®</sup> is a complete C-PVC pipework system for domestic hot and cold water services, providing secure, quicker and easier installations. Durapipe HTA is a cost-effective alternative to copper.**

Significant cost savings can be achieved against copper due to the installed time savings available via the simple jointing method and the product being lightweight.

Durapipe HTA offers a 50 year design-life and due to the high quality material the system remains limescale free and corrosion resistant, leading to a continual smooth bore and subsequent system efficiency through optimum water flow.

In addition, Durapipe HTA offers excellent fire resistance and also helps combat the growth of biofilms.

### Key Product Information

- Size Range: 16mm to 160mm
- Pressure Rating: PN25 up to 63mm and PN16 25mm to 160mm
- Temperature Rating: +5°C to +90°C\* (PN16 +70°C at 6bar) (PN25 +70°C at 10bar)

### Key Product Features

- Lightweight and easy to install
- Limescale and corrosion free
- No power or hot works required
- WRAS Approved
- Suitable for chemical and heat treatment for both hot and cold water
- Smooth bore providing optimum water flow
- Dedicated bracketing
- European fire classification – Bs1 d0 (Non-flammable, no smoke, no flaming droplets)
- Recycling friendly – HTA is over 98% recyclable

### Typical Applications

Hot & Cold water applications in all building types;

- Hospitals and other healthcare facilities
- Schools
- Commercial buildings
- Hotels and residential buildings
- Sports stadia

HTA

## SAFE CHEMICAL DRAINAGE

**Vulcathene is a purpose-designed chemical resistant plumbing system that has been specified and installed in the laboratories of schools, universities, hospitals and research facilities worldwide for over 60 years.**

Tried, tested and proven, Vulcathene is the only chemical drainage system to have withstood the test of time in the most demanding of laboratory applications.

Two easy jointing methods, Mechanical for demountable joints and Enfusion (electrofusion) for welded joints, provide total versatility for designers and installers of chemical waste systems.

### Key Product Information

- Size Range: 38mm to 152mm
- Temperature Rating: -20°C to 100°C (only intermittent at 100°C)
- Anti-siphon traps
- Swept fittings

### Key Product Features

- Purpose designed for chemical drainage
- Mechanical or Enfusion jointing methods
- Fully BBA Approved

### Typical Applications

Laboratories in:

- Schools
- Universities and colleges
- Hospitals and clinics
- Pharmaceutical companies
- Research organisations

# Vulcathene

# Plastic Pipework for Care Homes

quotes@tfpes.co.uk

To see a list of recent Durapipe Care Home projects visit:

[www.durapipe.co.uk/carehomes](http://www.durapipe.co.uk/carehomes)

Tel: 01626 201092

## SOUND ATTENUATED DRAINAGE

**A purpose-designed sound reducing drainage system that offers outstanding sound insulation properties compared with traditional cast iron or lagged single wall plastic drainage systems.**

Friaphon is constructed with dual layer technology and offers exceptional sound reduction properties from noises emitted by sanitary installations in buildings.

Lower material costs, coupled with speed of installation and no need for lagging, mean Friaphon offers significant cost savings over cast iron and single wall plastic drainage systems.

### Key Product Information

- Size Range: 110mm and 160mm
- Temperature Rating: 95°C (Short term)

### Key Product Features

- Superb sound insulation
- Lower cost alternative to cast iron
- No lagging required
- Lower cost alternative to lagged plastic
- Push fit assembly
- High impact and temperature resistant

### Typical Applications

Sound attenuated drainage systems in:

- Luxury apartments
- Hotels
- Libraries
- Hospitals
- Public buildings
- Restaurants

# Friaphon

# Online Technical Support Tools

available at:

[www.durapipe.co.uk/techttools](http://www.durapipe.co.uk/techttools)

## Expansion Calculator

Quickly calculate the potential expansion and contraction of our systems and estimate how to cater for this expansion.

## Dew Point Estimation Tool

Using fluid and ambient temperatures, together with humidity, the dew point at which condensation forms can be estimated.

## Pressure Drop Calculator

Establish the pressure loss through the valves within any of our pipe systems.

Tel: 01626 201092

## INDUSTRIAL FLUID HANDLING

**Durapipe PVC-U – for process chemicals and industrial fluid handling.**

**Our PVC-U pipe and fittings provide excellent chemical resistance making it ideal for various industrial applications.**

PVC-U allows the safe transportation of many acids, alkalis and chemical concentrates without fear of corrosion and environmental pollution.

Durapipe PVC-U is a solvent welded, fully matched pipework system incorporating pipe, fittings and valves that is available in both imperial and metric sizes.

PVC-U is lightweight and is extremely easy to install which can save both time and money on any given project when compared to other, more traditional pipework materials.

Furthermore, Durapipe PVC-U is fully WRAS approved and it also meets the requirements of other internationally recognised standards and approvals.

Durapipe UK PVC-U is listed in the 'List of Approved Products' published by the DWI.

### Key Product Information

- Size Range: 1/2" to 12" (*Imperial*), 12mm to 315mm (*Metric*)
- Pressure Rating: (*Metric*)  
Pipe –  
20mm to 110mm PN16  
32mm to 315mm PN10  
Fittings –  
12mm to 225mm PN16  
250mm to 315mm PN10
- Temperature Rating: 0° to 60°C
- Pressure Rating: (*Imperial*)  
1/2" to 6" pipe Class E  
up to 12" pipe Class C  
1/2" to 6" fittings Class E  
8" to 12" fittings Class C

### Key Product Features

- Lightweight
- Easy to install
- Excellent chemical resistance

### Typical Applications

- Acids and alkalis
- Effluents
- Potable water
- Chemical processing
- Effluent treatment

# WHEN LEAKS ARE NOT AN OPTION

When safety is critical, Durapipe Guardian dual contained pipework keeps what's inside – **locked inside.**

Tel: 01629 201092 [www.durapipe.co.uk](http://www.durapipe.co.uk)

Durapipe  
**Guardian**  
Dual Containment

## DURAPIPE GUARDIAN - DUAL CONTAINED PVC-U SYSTEM

Durapipe Guardian is a completely new Dual Contained pipework system made from PVC-U material.

Guardian is a unique system that incorporates a patented Centra-Lok™ system, which provides a solid fixed fitting, offering a true point of difference from other dual contained systems on the market.

Manufactured in PVC-U material, Durapipe Guardian is ideal for water and waste treatment applications as it allows the safe transportation of different fluids and some chemical concentrates without fear of corrosion and environmental pollution.

### Key Product Information

- Size Range: ½"#2" up to 8"#12"
- Pressure Rating: Class E 15 bar
- Temperature Rating: +5 to +60°C

### Key Product Features

- Patented Centra-Lok™ system holds fitting in the correct place prior to installation
- Extremely easy to install - Solvent Weld jointing for both inner and outer
- Visual or automated leak detection system available

### Typical Applications

- Water and waste water treatment
- Chemical process
- Pharmaceutical
- Industrial process
- Food and beverage
- Marine
- Potable water

Guardian is available in C-PVC material.  
Contact Customer Services for details.

## INDUSTRIAL PROCESSING

**Durapipe Polypropylene is specially designed to convey the most hazardous of chemicals at elevated temperatures.**

Polypropylene pipe has excellent chemical and abrasion resistance properties making it ideal for a range of industrial pipe supply purposes. Its characteristics are perfectly suited to process applications including pharmaceutical and chemical processing.

Durapipe Polypropylene is either socket fusion, electrofusion or butt fusion jointed, and is a fully matched pipework system incorporating pipe, fittings and valves that are available in a range of metric sizes.

All products in the range are manufactured from Homopolymer Polypropylene (PP-H) material.

### Key Product Information

- Size Range:  
20mm to 110mm (Socket)  
20mm to 400mm (Butt)
- Pressure Rating: PN10 (Metric)
- Temperature Rating: 0° to 100°C

### Key Product Features

- Lightweight
- Excellent chemical resistance
- Multiple jointing options
  - Socket fusion
  - Butt fusion
  - Electrofusion couplings

### Typical Applications

- Acids and alkalis
- Chemical processing
- Industrial waste treatment
- Pharmaceuticals
- Effluents

# BLUETOOTH COMPATIBLE ELECTRIC ACTUATOR

We are excited to launch an innovative **Bluetooth** powered valve actuator, allowing users to operate actuated valves remotely using any compatible **Bluetooth** device.

## FEATURES AND BENEFITS

- ▶ Operated by a compatible Bluetooth device (Tablet or Smartphone)
- ▶ Providing control at your fingertips
- ▶ Suitable for accessing valves at height or in difficult to reach areas
- ▶ Signal Range: Up to 10 Metres
- ▶ Unique ID code for each registered device
- ▶ Free to download SMARTIMER App featuring:
  - Operational Control
  - Cycle Counter
  - Programmable Pre-Set Timer  
**(The actuator can be set to open/close at a specific date or time)**
- ▶ Integrated anti-condensation heaters
- ▶ Compatible with a range of Durapipe Valves including:
  - (VKD, TKD Ball Valves and FK Butterfly Valves)
- ▶ Fully interchangeable with existing Durapipe mounted actuators

Available on  
Durapipe Product  
Code:  
**HZEP2BT1**

## HOT CORROSIVE FLUIDS

**Durapipe corzan is a C-PVC plastic pipework system for handling hot, corrosive fluids.**

corzan offers excellent performance levels in highly aggressive industrial conditions. The fully-matched plastic pipe system has the ability to convey hot acids and alkalis under pressure at elevated temperatures.

The smooth surface of corzan is corrosion resistant which makes it superior to metal pipework alternatives which can become prone to corrosion resulting in process leaks, flow restrictions and ultimately premature system failure.

For a reliable, chemically resistant C-PVC piping system, Durapipe corzan is the ideal choice.

### Key Product Information

- Size Range: 16mm to 160mm
- Pressure Rating: PN16 (16mm to 160mm)
- Temperature Rating: 5° to 95°C

### Key Product Features

- Excellent chemical resistance
- Lightweight
- Wide temperature range
- Easy to install
- High temperature acids and alkalis

### Typical Applications

- Acids and alkalis
- Demineralised water
- Industrial waste treatment
- Chemical processing
- Soaps, paper and pulps
- Effluents

corzan

## COMPRESSED AIR DISTRIBUTION

**Durapipe Air-Line Xtra is the ideal solution for ensuring that air is kept clean and uncontaminated for use in process and manufacturing industries.**

A lightweight, non-corrodible compressed air distribution system, Durapipe Air-Line Xtra is manufactured from a specially formulated blend of ABS and is suitable for continuous operation at 12.5 bar at 20°C.

Boasting a 30-year design life, Durapipe Air-Line Xtra is specifically designed for the conveyance of compressed air. Air-Line Xtra also meets the requirements of the UK Pressure Systems and Transportable Container Regulations.

### Key Product Information

- Size Range: 16mm to 110mm
- Pressure Rating: PN12.5

### Key Product Features

- Lightweight
- Easy to install
- Ultra smooth internal bore
- Corrosion resistant

### Typical Applications

- Compressed air systems

Air-Line Xtra

## PIPEWORK FOR FUEL

**Durapipe PLX is a complete range of dedicated fusion-welded pipework systems for the safe transfer of fuels. Suitable for use with diesel, bio-diesel and fuel oils.**

Durapipe PLX is used in buildings such as hospitals, data centres, prisons and banks where there is a need for a critical power supply.

The Durapipe PLX range represents a major innovation in pipework technology as it offers the ultimate in environmental protection with maximum protection against permeation, and leak free joints.

Durapipe PLX is fully compliant with the Energy Institute (Institute of Petroleum Performance systems), rigorous EN testing and other worldwide recognised standards.

**We also offer PLX Blue - a pipe system purpose designed to convey AdBlue®/DEF.**

With the ever-increasing use of AdBlue®/DEF to lower NOx concentrations in the exhaust emissions of diesel engines, a high quality pipework system is required to convey the solution from tank to pump. PLX Blue offers the choice of both single wall and dual contained, giving the option to be monitored for leak detection if required and offering peace of mind to the installer and client alike.

### Key Product Information

- 10 bar pressure rating
- Temperature Rating: -20°C to 50°C
- Secondary containment system
- 30 year design life
- Size Range: 32mm to 315mm
- Electrofusion system

### Key Product Features

- Suitable for pressure and vacuum applications
- Resists fuel permeation
- Corrosion resistant
- Protects the environment
- Easy to install

### Typical Applications

- Critical/emergency power supply
- Oil-fired equipment
- Commercial and public transport refuelling

# PLX

### Portable Welding Machine

**Includes:** welding machine, charger, 2 x battery, PLX adaptors

Description	Product code	Price £/each
PLX Welding Machine Nomad inc. Battery Charger (for repairs only)	43 ET1 ULN	2784.22

### PLX+ Conductivity Tester Kit

**Includes:** Flying leads adaptors (1 pair), hand scraper, USB data stick, 2 x cables with 90° angled connection and 4.7mm/4mm adaptors

Description	Product code	Price £/each
PLX+ Conductivity Tester	72 TES 001	335.06

### Peelers

Description	Product code	Price £/each
PLX Pipetools SurPrep Multikit 32 - 110mm	43 MZO 018	629.27
PLX Pipetools Uniprep 1 Preparation Tool 90 - 400mm	43 MZO 020	597.11
PLX Pipetools Uniprep 4 Preparation Tool 63 - 225mm	43 MZO 019	571.09

### Clamps

Description	Product code	Price £/each
PLX 32 - 63mm Pipetools Universal Pipe Clamp	43 MZO 050	206.24
PLX 63 - 160mm Pipetools Universal Pipe Clamp	43 MZO 051	397.59
PLX 125 - 400mm Pipetools Universal Pipe Clamp	43 MZO 052	480.97
PLX 32 - 40mm to 63 - 75mm Pipetools Close-Fit Pipe Clamp	43 MZO 053	578.14

### Cutters

Description	Product code	Price £/each
PLX 32 - 63mm Pipetools Cutter	43 777 101	91.54
PLX 50 - 110mm Pipetools Cutter	43 728 100	221.60
PLX 110 - 160mm Pipetools Cutter	43 728 102	244.97
PLX 225mm Pipetools Virax Guillotine Pipe Cutter	43 728 200	1248.02
PLX 315mm Pipetools Virax Guillotine Pipe Cutter	43 728 201	3478.63

### Protection Sleeves

Description	Product code	Price £/each
PLX 32 - 40mm Pipetools Protection Sleeve	43 494 308	26.68
PLX 50 - 63mm Pipetools Protection Sleeve	43 494 310	38.91
PLX 63 - 75mm Pipetools Protection Sleeve	43 494 311	52.24
PLX 90 - 110mm Pipetools Protection Sleeve	43 494 313	60.34
PLX 110 - 125mm Pipetools Protection Sleeve	43 494 314	68.52

### Welding Accessories

Description	Product code	Price £/each
PLX Connexion Blue Storage Box	43 997 321	69.42
PLX Welding Machine Spring Adaptors (1 Pair)	43 EWO 004	35.54
PLX Weld Machine Fixed Output Lead 4m P3 40v x 4.7mm Mk4 RAP	43 EWO 007	140.37
PLX Terminal adaptor 4.7mm male x 4.0mm female (Pair)	43 EWO 002	24.13
PLX Close Contact Barcode Scanner	43 EWO 012	254.29
PLX Pipetools Hand Scraper	43 SPA 012	7.51
PLX Isopropanol Wipes	43 451 101	8.06

Full range of accessories available upon request.

## ACTUATED VALVES

In addition to our market leading manual valves, we also offer a wide range of actuated valve solutions, that can be either be powered electrically or pneumatically, allowing end-users to operate a network of valves remotely. This is particularly suitable for inaccessible valves in enclosed spaces or valves stored within a confined safety environment.

Our in-house valve department can offer technical advice and assemble complex actuated valve packages that can usually be delivered to site within 48-hours of order.

Durapipe Actuated valves codes have a unique coding structure. The code is developed by selecting, type of operation, valve type, valve material seal type and end connection/size.

Please see the below electric/pneumatic coding examples:

**Example 1** – SuperFLO ABS VKD ball valve (Electrically Actuated 100 to 240vAc)

<b>H</b>	<b>1</b>	<b>D</b>	<b>K</b>	<b>A</b>	<b>1</b>	<b>0</b>	<b>6</b>
----------	----------	----------	----------	----------	----------	----------	----------

- H** = Prefixes all valve orders
- 1** = Type of operation/actuator In this examples: Electrical 100 to 240V
- D K** = Type of valve. In this example: VKD Double union ball
- A** = Body and seals details. In this example: ABS body with EPDM seals
- 1 0 6** = Valve size. In this example: to suit a pipe of 1 ½" nominal bore

**Example 2** – SuperFLO ABS VKD ball valve (Pneumatically Actuated fail-safe closed)

<b>H</b>	<b>P</b>	<b>D</b>	<b>K</b>	<b>A</b>	<b>1</b>	<b>0</b>	<b>6</b>
----------	----------	----------	----------	----------	----------	----------	----------

- H** = Prefixes all valve orders
- P** = Type of operation/actuator In this examples: Pneumatic F/S closed
- D K** = Type of valve. In this example: VKD Double union ball
- A** = Body and seals details. In this example: ABS body with EPDM seals
- 1 0 6** = Valve size. In this example: to suit a pipe of 1 ½" nominal bore

ACTUATED PNEUMATIC

## Variable Area Flowmeter

The flowmeter operates on the variable area principle, where a float is suspended in an upward flowing liquid within a tapered tube. The vertical position of the float within the metering tube is dependent on the flow rate of the liquid.

The metering tube is graduated in suitable flow units (normally with 10:1 flow range) and the flow rate reading is taken from the scale at the position of the top face of the float.

### Applications

- Water treatment
- Industrial wastewater treatment
- Textile finishing
- Water distribution
- Processing and manufacturing industry
- Filtration systems
- Chemical production
- Liquid delivery systems
- Monitoring of cooling water
- Heat exchangers
- Swimming pools
- Pump protection – when limit switches are fitted

## DURAPIPE UK CONDITIONS OF SALE

## 1. DEFINITIONS:

'Seller' shall mean Glynwed Pipe Systems Limited, registered in England under number 1698059. 'Buyer' shall mean any company, organisation or individual to whom a quotation is offered, or whose order is accepted by the Seller.

## 2. CONDITIONS:

All offers, quotations, estimates, acceptances and contracts are subject to these Conditions of Business and any terms or conditions which any other person shall seek to impose or make part of any contract shall, so far as is inconsistent with these Conditions of Business, not apply unless expressly agreed by the Seller in writing. The headings in these conditions are for convenience only and shall not affect their interpretation.

## 3. QUOTATIONS, PRICE VARIATIONS AND MADE TO ORDER GOODS:

a) Any quotation given by the Seller is an invitation to the Buyer to make an offer only and no order of the Buyer placed with the Seller in pursuance of a quotation or otherwise shall be binding on the Seller unless and until it is accepted in writing by the Seller.

b) Unless stated otherwise, all quotations and published price lists are ex works, exclusive of VAT and shall remain valid for 30 days or such period as may be quoted but nevertheless the Seller may amend or withdraw any quotation by written or oral notice. Quotations may be varied if the Buyer makes variations in his specifications but see special conditions relating to Made to Order Goods.

c) Certain products are denoted 'MTO' in the Seller's published price lists. These products are Made to Order Goods and the Seller manufactures or procures these goods on a bespoke basis only. Where a Buyer has made an offer for 'MTO' products that the Seller has accepted in writing the Buyer forfeits their right to cancel their offer unless the Seller confirms in writing that it will accept cancellation by the Buyer. Where the Seller does not provide written confirmation of the Buyer's cancellation the Buyer remains liable for the full contractual value of all 'MTO' products. 'MTO' 'Call-off' orders must be taken within 12 months of the original order date.

## 4. STATEMENTS OR REPRESENTATIONS TO THE BUYER:

If any statement or representation has been made to the Buyer upon which the Buyer relies other than in the documents enclosed with the Seller's quotation, the Buyer must set out that statement or representation in a document to be attached to or endorsed on the order in which case the Seller may submit a new quotation.

## 5. DELIVERY - TIME:

a) Any period for delivery given at any time and in any manner by the Seller is an estimate only and is not binding on the Seller. Delivery periods are normally calculated from the later of:

- i) acceptance of order; or
- ii) where applicable, the receipt by the Seller of a detailed specification or drawings.

b) Time shall not be deemed to be of the essence of the contract. Failure by the Seller to meet any quoted delivery period for any part or the whole of the order shall not entitle the Buyer to rescind the contract or to claim damages of any nature.

c) The Seller will endeavour to comply with reasonable requests by the Buyer for postponement of delivery but shall be under no obligation to do so. Where delivery is postponed otherwise than due to default by the Seller the Buyer shall pay all costs and expenses including a reasonable charge for storage and transportation occasioned thereby and an extra charge for split delivery if applicable.

d) The Buyer will receive delivery of any consignment between the hours of 8.00am and 4.00pm Monday to Friday inclusive, unless otherwise agreed in writing. Cost incurred by the Seller arising from the Buyer's refusal to accept consignments within the agreed hours shall be borne by the Buyer.

## 6. DELIVERY AND RISK:

a) Except where stated to the contrary in the contract, delivery shall be made as follows:

- i) where the Buyer provides the transport, delivery shall be made ex the Seller's works;
- ii) where the Seller provides the transport, delivery shall be made to the premises of the Buyer, or the premises of the Buyer's customer or works site if the Buyer has requested delivery to be so made but where the Buyer has made such a request the Seller will make a first delivery to the Buyer's customer or works site as so much of the goods as is available for that delivery but subsequent deliveries will be made to the premises of the Buyer.

b) The Seller may at its discretion make partial delivery of orders and invoice the same.

c) Risk in the goods shall pass on delivery.

d) Where goods are sent FOB the Seller's responsibility shall cease when the goods are placed on board ship or aircraft without the need for the Seller to give notice to the Buyer and the provisions of Section 32(3) of the Sale of Goods Act 1979 shall not apply.

## 7. OWNERSHIP OF GOODS:

a) The goods shall remain the sole and absolute property of the Seller as legal and equitable owner until such time as the Buyer shall have paid to the Seller the contract price together with the full price of any other goods the subject of any contract between the Seller and the Buyer.

b) The Buyer acknowledges that until such time as the property in the goods passes to the Buyer he is in possession of the goods as a bailee and fiduciary agent for the Seller and the Purchaser shall store the goods in such a manner that they are clearly identifiable as the property of the Seller.

c) Until payment due under all contracts between the Buyer and the Seller had been made in full, in the event of sale of the goods by the Buyer:

- i) the Seller shall be entitled to trace all proceeds of sale received by the Buyer through any bank or other account maintained by the Buyer; and
- ii) the Buyer shall if requested by the Seller in writing to so assign its rights to recover the selling price of the goods from the third parties concerned. Such monies to be held separately by the Buyer as agent on behalf of the Seller.

d) The Seller may for the purpose of recovery of its goods enter upon any premises where they are stored or where they are reasonably thought to be stored and may repossess the same.

## 8. TERMS OF PAYMENT:

In the event of default in payment according to the agreed payment terms between the Seller and the Buyer - i.e. by the end of the month following the month of despatch of the goods the Seller shall be entitled without prejudice to any other right or remedy to suspend all further deliveries and to charge interest on any amount outstanding at the rate of 2% per month until payment in full is made (a part of a month being treated as a full month for the purpose of calculating interest).

## 9. SHORTAGES AND DEFECTS APPARENT ON DELIVERY:

a) It shall be the responsibility of the Buyer to inspect or arrange for an inspection of the goods on delivery whether the goods are delivered to the Buyer's premises or to the premises of the Buyer's customer or to a works site. If no such inspection is made the Buyer shall be deemed to have accepted the goods.

b) The Buyer shall have no claim for shortages or defects apparent on inspection unless:

- i) a written complaint is made to the Seller within three days of receipt of the goods specifying the shortage or defect; and
- ii) the Seller is within seven days of receipt of the complaint given an opportunity to inspect the goods and investigate the complaint before any use is made of the goods.

c) If a complaint is not made to the Seller as herein provided then in respect of such shortages or defects the goods shall be deemed to be in all respects in accordance with the contract and the Buyer shall be bound to pay for the same accordingly.

## 10. CLAIMS FOR DEFECTS NOT APPARENT ON INSPECTION:

a) The Buyer shall have no claim for defects not apparent on inspection unless the Seller is notified of defective workmanship or materials within twelve months from delivery of the goods. Provided that the goods have been installed and applied in accordance with any relevant recommendations made by the Seller, the Seller will at its option replace the goods or refund the net invoiced price in respect of the goods which have been shown to be defective. If the Seller does so supply substitute goods the Buyer shall be bound to accept such substituted goods in full satisfaction of the obligations of the Seller under the contract.

b) The Buyer shall in any event have no claim or set-off in respect of defects unless a written complaint is sent to the Seller as soon as the defect is noticed and no use is made of the goods thereafter or alteration made thereto by the Buyer before the Seller is given an opportunity to inspect the goods.

c) The Buyer is responsible for ensuring that the goods are fit for any particular purpose, and no warranty or condition of fitness for any particular purpose is to be implied into the contract.

## 11. LIABILITY:

Save as stated in Conditions 9 and 10 (and save in respect of death or personal injury resulting from the negligence of the Seller its servants or agents) the Seller shall not be liable for any claim or claims for direct or indirect consequential or incidental injury loss or damage made by the Buyer against the Seller whether in contract or in tort (including negligence on the part of the Seller its servants or agents) arising out of or in connection with any defect in the goods or their fitness or otherwise for any particular purpose or any act omission neglect or default of the Seller its servants or agents in the performance of the contract.

## 12. FORCE MAJEURE:

Notwithstanding anything herein contained neither the Buyer nor the Seller is to be held liable for any delay or failure to carry out the contract due wholly or in part to an act of God action by any Government whether British or foreign civil war strikes and/or lockouts wheresoever occurring fire trade disputes floods or unfavourable weather or any material becoming unavailable or irreplaceable (whether at all or at commercially acceptable prices) or any other circumstances beyond the control of the Seller.

## 13. SUB-CONTRACTING:

The Seller reserves the right to sub-contract the fulfilment of any order or any part thereof.

## 14. INSOLVENCY AND BREACH OF CONTRACT:

In the event that:

a) the Buyer commits any breach of the contract and fails to remedy such breach (if capable of remedy) within a period of thirty days from receipt of a notice in writing from the Seller requesting such remedy; or

b) any distress or execution is levied upon any of the goods or property of the Buyer; or

c) the Buyer offers to make any arrangements with or for the benefit of its creditors or (if an individual) becomes subject to a petition for a bankruptcy order or (being a limited company) has a receiver appointed of the whole or any part of its undertaking property or assets; or

d) an order is made or a resolution is passed or analogous proceedings are taken for the winding up of the Buyer (save for the purpose of reconstruction or amalgamation with insolvency and previously approved in writing by the Seller) the Seller shall thereupon be entitled without prejudice to its other rights hereunder forthwith to suspend all further deliveries until the default has been made good or to determine the contract and any unfulfilled part thereof or at the Seller's option to make partial deliveries. Notwithstanding any such termination the Buyer shall pay to the Seller at the contract rate for all the goods delivered up to and including the date of termination.

## 15. INDUSTRIAL PROPERTY RIGHTS:

If goods supplied by the Seller to the Buyer's design or specifications infringe or are alleged to infringe any patent or registered design right or copyright the Buyer will indemnify the Seller against all damages, costs and expenses incurred by the Seller as a result of the infringement or allegation. The Buyer will give the Seller all possible help in meeting any infringement claim brought against the Seller.

## 16. BUYER'S ERROR IN ORDERING:

In the event the Buyer orders incorrectly the Seller will be under no obligation to the Buyer to rectify or assist in rectifying the error.

## 17. LAW AND JURISDICTION:

The contract shall be subject in all respects to English Law and to the jurisdiction of the English Courts.
